Answers

Did you know that bats are mammals? We know they are mammals just like us because they are warm blooded. They are the only mammals that know how to fly. Bats are nocturnal which means they sleep during the day and are awake at night.

Baby bats are called pups. Baby bats don’t have hair when they’re born. Within a month, baby bats are flying and hunting for food on their own.

There are lots of different kinds of bats. Bats live all over the world but they don’t live in cold regions. One group of bats eats fruits and the other group of bats eats insects, birds, and nectar.

The statement blind as a bat is not true because bats can see quite well.
